FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.530 sets out requirements for use of the closed formulary for claims not subject to certified networks.
3. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes;
 - 197 – Precertification/authorization/notification absent.

Issues

1. Did the carrier support that denial reason?
2. Is the requestor entitled to reimbursement?

Findings

1. The carrier denied the disputed service as 197 – “Precertification/authorization/notification absent.”

Review of the TX COMP claim profile at <https://txcomp.tdi.state.tx> finds no active Certified network. Therefore, the applicable rule is 28 Texas Administrative Code §134.530 which states in pertinent part, “(b) Preauthorization for claims subject to the Division's closed formulary. (1) Preauthorization is only required for:

(A) drugs identified with a status of "N" in the current edition of the ODG Treatment in Workers' Comp (ODG) / Appendix A, ODG Workers' Compensation Drug Formulary, and any updates;

(B) any compound that contains a drug identified with a status of "N" in the current edition of the ODG Treatment in Workers' Comp (ODG) / Appendix A, ODG Workers' Compensation Drug Formulary, and any updates; and

(C) any investigational or experimental drug for which there is early, developing scientific or clinical evidence demonstrating the potential efficacy of the treatment, but which is not yet broadly accepted as the prevailing standard of care as defined in Labor Code §413.014(a).”

Review of the submitted medical claim finds;

- a. Appendix A, ODG Workers' Compensation Drug Formulary lists – “Ketamine, Lidocaine and Gabapentin” – with a status of “N”.
- b. State of Pharmacy Services / DWC066 (no prior authorization present)

As this was a compounded cream with “N” status ingredients, prior authorization was required but was not obtained. The Carrier’s denial is supported.

2. As no documentation was found to support the requirements of Pharmacy Rule 134.530 were met, no additional payment can be recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
